Sheriff Ellison has been trying the experiment of feeding the prisoners on watermelons. They are having a regular festival in jail. Some fellow in jail said he could get more water melons in jail than he could out of a certain patch. He is in for discovering the color of the meat of a certain party's melons.

Rich on human, mangle on horses, dogs and all stock, cured in 30 minutes by Woodford's Sanitary Lotion. This never fails. Sold by W. E. Aiken, druggist, Winoosboro, S. C.

The Cotton is Coming.—Bagging and ties are rolling into town. Cotton is not far off. We learn that it is opening fast in the sandy land below town.

We Will Not Starve.—The merchants of this town purchased last week from Mr. T. W. Lauderdale, agent for the Liberty Mills, 475 barrels of flour. This is the largest sale we have heard of lately.

Greenbrier and the Boro.—On Tuesday evening Greenbrier played Winoosboro No. 12 on the green. The score stood 4 to 2, in favor of the Boro. Greenbrier did some good playing. One inning, however, they put three men out at first base. Come again, boys, we like to see it.

Mistaken.—We are in error as to Mr. Jno. W. Lyles vote in the County Convention. Mr. Lyles did not, as chairman, care to vote unless a tie came. He was opposed, and so was his club, to any nominations at all. We cheerfully make the correction.

Returned to Texas.—Miss L. W. Elliott has started on her way to Huntsville, Texas, where she teaches in the Normal School. She will visit the family of Col. McMaster in Columbia, and will spend a few days in Atlanta. From there she goes directly to Texas.

They go direct to Hamburg and will study music under the eminent teacher Barth, in Berlin, for the ensuing year. Mrs. Abell's mother, Mrs. Mary C. Rion, will accompany them.

The Governor and the Atkinsons.—Governor Tillman has written to parties in Ridgeway concerning the merits of the case against the Atkinsons. In consequence, a delegation familiar with the case with the case went down on Friday to give the facts in the case. The Governor is evidently giving prompt attention to the case and his decision may be given sooner than the people expect it.

Pawnee Bill.—The News and Herald has heard from Pawnee Bill and his Wild West Show. We received a pamphlet from him mailed at Antwerp in Belgium. The postmark is dated Antwerp, August 5, 1894. The stamps are of different colors, one green on pink ground, one dark on white ground and one buff on white ground. It took ten cents to bring the pamphlet. We will preserve the stamps as a curiosity.

Disappointed.—There was a great many people in town on Friday. They came on account of the hanging. Some from the neighborhood of the murder heard at Ridgeway that the Atkinsons were respite for thirty days, but came on out of curiosity. Many others knew nothing of the postponement and expected it to take place that day. It was generally known, however, or there would likely have been six or seven hundred people here.

Kenneth Bazemore had the good fortune to receive a small bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy when three members of his family were sick with dysentery. This small bottle cured them all and he had some left which he gave to Geo. W. Baker, a prominent merchant of this place. Dr. King's New Life Pills, and it cured him of the same complaint. When troubled with dysentery, diarrhea, colic or cholera morbus, give this remedy a trial and you will be more than pleased with the result. The praise that naturally follows its introduction and use has made it very popular. 25 and 50 cent bottles for sale by all druggists.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

A REQUEST.—The Methodist graveyard has been lately cleaned off and improved, and we are requested to ask all persons who own cattle or stock of any kind to see that their stock does not get into this yard. We have heard that cows have been put in there and left. Of course this is the work of some trifling boy left to mind them. We feel certain that no responsible person would allow the graveyard to be used by their stock if they knew it.

SN IT TO A FINISH.

Dr. Sampson Pope is in the gubernatorial fight to the last. In accordance with the intention expressed in a recent interview he has issued an address to the Democratic voters of the State calling upon them to vote generally at the primary and asking his friends to select and elect Pope delegates. The following is Dr. Pope's address:

To the Democratic voters of South Carolina:

At the primary, which comes off on the 28th of August, you are to vote for delegates to the convention who will vote for Governor, Lieutenant Governor and other state officers. The time is short for nominating in each county delegates to represent you in that convention. It is attempted to be held that these delegates must file a pledge on or before the 15th inst. You have but to refer to the rule on the subject made by the Democratic Executive Committee to see that this is not to be done. "Rule 8: Candidates for the General Assembly and for county officers shall, ten days previous to the primary election, file with the chairman of the County Executive Committee a pledge in writing to abide by the result of the primary and support the nominees of the party. Candidates for other offices shall file such pledge with the chairman of the State Democratic Executive Committee. No vote for any candidate who has not complied with this rule shall be counted."

Now, this refers to candidates for county and State offices and not for delegates to the convention who are not officers of either. Do not strain construction can it be made to apply to them.

I say to my friends all over the State, select in each county a list of delegates, vote for them and elect them and their votes will be counted in the convention or I will know the reason why.

The voice of the people cannot be and shall not be stifled. Forty thousand Reformers did not vote at the recent primary. In not voting they put their feet down on "rings" and the cause of this month they will speak at the polls in further condemnation of such methods.

Go to the polls on the 28th, cast your votes and see that they are counted and within five days after the election let the delegates get the result of the election and the respective county Democratic chairmen and forward to the chairman of the State Democratic Executive Committee at Columbia, S. C. Respectfully,

SAMPSON POPE

THOSE MELONS.

On Thursday evening our reporter took passage with Mr. J. E. McDonald, who was going down to Maj. Woodward's at his invitation through our columns. We both concluded that as he had called for help to remove those melons that we would do a neighborly act. After we arrived at the Major's we were curious to see how the Mongolian pheasants were doing. We saw thirty, they were in three families, they are being cared for by the ordinary men, will run about the place, fly over the garden and come back to the hen just as though she was the parent bird. As they grow older they become wilder and are much shyer the older they get. Two pheasants have laid 100 eggs this year and next year Major thinks he will have four or five hundred eggs. He proposes to turn the pheasants over to those who will care for them and protect them and thus scatter them over the county.

The guests soon commenced to roll in the yard and ere long the "hooked for assistance" was on hand. We all enjoyed the treat greatly. Mrs. Woodward entertained the ladies in the house and Major the gentlemen in the yard. The melons were fine and the appetites were fine, judging from the amount of rinds when we left it. We discovered that the number of rinds left by the ladies outnumber those left by the men about 40 per cent, although there were more men present. Everyone enjoyed the occasion extremely but none more than Mr. and Mrs. Woodward.

A Reason Why

You Should Buy the Celebrated "PREMIUM CAROLINA BUGGY."

WOOD WORK:

BODIES.—Frames made of best white ash, mortised and put together by a pattern, thoroughly glued and secured. Panels of the celebrated Blue Ridge Mountain—made, put on in the most approved manner, using miter corner, best double glue, screws and plugs. Bodies are well sides and centres, thus combining symmetry and strength; panels thick at bottom to give necessary strength and thin at top to make the body light. Top edge of panel covered with light, neat, oval corner iron to protect and strengthen the panel. Bottom edge of body rounded off, so that the varnish can flow off the panel around under the body and not leave a ridge of sticky varnish around the bottom edge of body.

The bench work on these bodies is done by J. O. St. John, with a complete set of the most noted builders of fine bodies of this day; and the fact that he builds our bodies is sufficient guarantee that they are FIRST CLASS. We challenge the world to beat them. More anon.
